

## SAFETY DATA SHEET (SDS)

		SAFETT DATAS					
Product identifier	Metaflux 70.78	Stainless Steel Finish Spray	incation				
Other means of identifica		Stanness Steer Finish Spray					
Recommended use and		COATING/AEROSOL					
use	restrictions on	COATING/AEROSOL					
Initial supplier identifier		L UTION.COM 1392, AVENUE I 7-3102 & (888) 452-6382 <u>www</u>	DE LA GARE, MASCOUCHE, (QU	JÉBEC), J7K 2Z2, CANADA			
Emergency telephone nur			24 hour number 613-996-6666				
Entergency telephone nul	inder/restriction o	Section 2. Hazard id					
		of the category or subcategory	of the hazard class)				
Extremely flammable aeros							
Gas under pressure (compressed gas)							
Skin sensitization (category 1)							
Eye irritation (Category 2A)							
	Aspiration hazard (Category 1) Specific target organ toxicity – single exposure (Category 3), Central nervous system						
Carcinogenicity (Category		e (Category 5), Central hervous	system				
Reproductive toxicity (Category							
		nic (Category 3)					
Hazardous to the aquatic environment – Chronic (Category 3) Information elements (symbols, signal words, hazard statements and precautionary statements of the category/subcategory)							
information contents (symbols, signal words, nazaru statements and precaduonary statements of the category/subcategory)							
Danger H222 Extremely flammable aerosol. H229 Pressurized container: may burst if heated. H280 Contains gas under pressure; may explode if heated.							
H304 May be fatal if swall			0 1				
		19 Causes serious eye irritation.					
			H361 Suspected of damaging fertilit	ty or the unborn child.			
		g effects. *** May displace oxyg		-			
			afety precautions have been read ar	nd understood. P210 Keep away			
			oking. P211 Do not spray on an ope				
P251 Do not pierce or burn	n, even after use. P2	261 Avoid breathing dust/fume/g	as/mist/vapours/spray. P264 Wash	hands/nails/face thoroughly after			
handling. P271 Use only o	outdoors or in a w	ell-ventilated area. P272 Contan	ninated work clothing should not b	e allowed out of the workplace.			
			ng/eye protection/face protection. P				
			52 IF ON SKIN: wash with plenty				
			inated clothing and wash it before r				
			ses, if present and easy to do. Conti				
			e person to fresh air and keep comfo				
			al attention. P391 Collect spillage.				
			in a well-ventilated area. Keep con				
			ce with local, regional or national re-	gulations.			
Other hazards known		xiants (Category 1) A gas that					
	Se	ection 3. Composition/inform	nation on ingredients				
Chemical name (common	name/synonyms)		CAS number or other	Concentration (%)*			
Acetone			67-64-1	5-10			
n-Butyl acetate			123-86-4	5-10			
Hydrocarbons, C9, Aromat	ics		EC 918-668-5	5-10			
Xylenes			1330-20-7	1-5			
Hydrocarbons, C6, isoalka	nes		64742-49-0	1-5			
Naphtha (petroleum), desul			64742-82-1	1-5			
Ethyl benzene	-		100-41-4	1-5			
n-Butanol			71-36-3	1-5			
Nickel			7440-02-0	< 1			
Chromium			7440-47-3 < 1

\* Statement - This safety data sheet provides concentration range(s) instead of the actual concentration(s) considered trade secret(s). Section 4. First-aid measures IF INHALED: Remove person to fresh air and keep comfortable for breathing. Call a doctor if you feel unwell. Inhalation IF SWALLOWED: Immediately call a doctor. DO NOT INDUCE VOMITING. NEVER give anything by mouth if victim is Ingestion rapidly losing consciousness, or is unconscious or convulsing. Rinse mouth thoroughly with water. Have victim drink two glasses of water. If vomiting occurs naturally, have victim lean forward to reduce risk of aspiration. IF ON SKIN: wash with plenty of water. (15-20 minutes) IF SKIN irritation or rash occurs: Get medical attention. Take off Skin contact contaminated clothing and wash it before reuse. IF IN EYES, Rinse cautiously with water for several minutes (15-20). Remove contact lenses, if present and easy to do. Eye contact Continue rinsing. If eye irritation persists: Get medical attention. Most important symptoms and effects (acute or delayed) Causes serious eye irritation. In all cases, call a doctor. Do not forget this document. Indication of immediate medical attention/special treatment Section 5. Fire-fighting measures Specific hazards of the hazardous product (hazardous combustion products) Carbon oxides and other irritant/toxic gases and fumes. Suitable and unsuitable extinguishing media In case of fire: Use carbon dioxide, chemical powder agent and appropriate foam to extinguish. Special protective equipment and precautions for fire-fighters During a fire, irritating/toxic smoke and fumes may be generated. Do not enter fire area without proper protection. Firefighters should wear proper protective equipment and self-contained breathing apparatus with full facepiece. Shield personnel to protect from venting, rupturing or bursting cans. Move containers from fire area if it can be done without risk. Water spray may be useful in cooling equipment and cans exposed to heat and flame. Section 6. Accidental release measures Personal precautions, protective equipment and emergency procedures Restrict access to area until completion of clean-up. Ensure clean-up is conducted by trained personnel only. All persons dealing with clean-up should wear the appropriate protective equipment (See Section 8). Methods and materials for containment and cleaning up Avoid release to the environment. Collect spillage. Ventilate area of release. Stop the leak if it can be done safely. Contain and absorb any spilled liquid concentrate with inert absorbent material, then place material into a container for later disposal (see Section 13). Contaminated absorbent material may pose the same hazards as the spilled product. Notify the appropriate authorities as required. Section 7. Handling and storage Precautions for safe handling Protect from sunlight. Do not expose to temperatures exceeding 50 °C/122 °F. Keep away from heat/sparks/open flames/hot surfaces. - No smoking. Do not spray on an open flame or other ignition source. Do not pierce or burn, even after use. Use only outdoors or in a well-ventilated area. Wash hands/nails/face thoroughly after handling. Wear gloves/protective clothing/eye protection/face protection. Before handling, it is very important that engineering controls are operating, and that protective equipment requirements and personal hygiene measures are being followed. People working with this chemical should be properly trained regarding its hazards and its safe use. Inspect Label containers appropriately. Ensure proper containers for leaks before handling. ventilation. Avoid breathing dust/fume/gas/mist/vapours/spray. Avoid contact with eyes, skin and clothing. Keep away from heat, sparks and flame. Avoid generating high concentrations of dusts, vapours or mists. Keep away from incompatible materials (Section 10). Keep containers closed when not in use. Empty containers are always dangerous. Refer also to Section 8. Conditions for safe storage, including any incompatibilities Store in a well-ventilated place. Keep container tightly closed. Keep cool. Store locked up. Store away from incompatible materials (Section 10). Inspect all incoming containers to make sure they are properly labelled and not damaged. Storage area should be clearly identified, clear of obstruction and accessible only to trained personnel. Inspect periodically for damage or leaks. Section 8. Exposure controls/Personal protection Control parameters (biological limit values or exposure limit values and source of those values) Exposure limits: CAS 74-98-6 & 106-97-8 - ACGIH - TLV-TWA (STEL) & PEL-TWA 1000 ppm; CAS 67-64-1 - ACGIH - TLV-TWA 500 ppm & TLV-STEL 750 ppm; CAS 1330-20-7 ACGIH - TLV-TWA 100 ppm (STEL 150 ppm) & PEL-TWA 100 ppm; CAS 100-41-4 ACGIH -TLV-TWA 20 ppm & PEL-TWA 100 ppm; CAS 123-86-4 - ACGIH - TLV-TWA 150 ppm (STEL 200 ppm); CAS 71-36-3 ACGIH - TLV-TWA 20 ppm; CAS 7440-47-3 ACGIH – TLV-TWA 0.5 mg/m<sup>3</sup> & PEL 0.5 mg/m<sup>3</sup>; CAS 7440-02-0 ACGIH – TLV-TWA 1.5 mg/m<sup>3</sup>; **Appropriate engineering controls** Use under well-ventilated conditions. Local exhaust ventilation system is recommended to maintain concentrations of contaminants below exposure limits. Make emergency eyewash stations, safety/quick-drench showers, and washing facilities available in work area. Individual protection measures/personal protective equipment Respiratory protection is required if the concentrations are higher than the exposure limits. Use a NIOSH approved respirators if the exposure limits are unknown. Chemically protective gloves (impervious), and other protective clothing to prevent prolonged or repeated skin contact, must be worn during all handling operations. Wear protective chemical splash goggles to prevent mists from entering the eyes. Wash hands/nails/face thoroughly after handling. Do not eat, drink or smoke when using this product. Practice good personal hygiene after using this material. Remove and wash contaminated work clothing before re-use.

	Sec	ction 9. Physical and c	hemical	propertie	S	
Appearance, physical state/colour	d (aerosol)	Vapour pressure Not available				
Odour Characteristic			Vapour		Heavier t	han air
<b>Odour threshold</b> Not available	;			e density	Not avail	able
<b>pH</b> Not available			Solubility Not miscible			
	vailable		Partition coefficient - n-octanol/water Not available			
Initial boiling point/range Not available			Auto-ignition temperature Not available			
Flash point Not available			<b>Decomposition temperature</b> Not available			
<b>Evaporation rate</b> Not available	;		Viscosity Not available			
Flammability (solids and gases)		nmable aerosol	VOC	Not avail		
Upper and lower flammability/ex		Not available	Other	None kno	own	
	<b>1</b>	Section 10. Stability				
Reactivity		~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~				
Does not react under the recommend	ded storage and h	andling conditions prescr	ibed.
