

**SAFETY DATA SHEET (SDS)**
**Section 1. Identification**

|  |   |
|--|---|
| <b>Product identifier</b>                            | Metaflux 70-08Super-Degrip-Spray  |
| <b>Other means of identification</b>                 | 70-08   |
| <b>Recommended use and restrictions on use</b>       | LUBRICANT/AEROSOL   |
| <b>Initial supplier identifier</b>                   | AMETA SOLUTION.COM1392, AVENUE DE LA GARE, MASCOUCHE, (QUEBEC), J7K 2Z2, CANADA<br>TEL. (450) 477-3102 & (888) 452-6382 WWW.AMETASOLUTION.COM |
| <b>Emergency telephone number/restriction on use</b> | Canada – CANUTEC 24 hour number 613-996-6666  |

**Section 2. Hazard identification**
**Classification of hazardous product (name of the category or subcategory of the hazard class)**

Extremely flammable aerosol (Category 1)  
 Gas under pressure (compressed gas)  
 Skin irritation (Category 2)  
 Aspiration hazard (Category 1)  
 Specific target organ toxicity – single exposure (Category 3), Central nervous system

**Information elements (symbols, signal words, hazard statements and precautionary statements of the category/subcategory)**

Danger

H222 Extremely flammable aerosol.

H229 Pressurized container: may burst if heated.

H280 Contains gas under pressure; may explode if heated.

H304 May be fatal if swallowed and enters airways.

H315 Causes skin irritation.

H336 May cause drowsiness or dizziness.

\*\*\* May displace oxygen and cause rapid suffocation. P210 Keep away from heat, hot surfaces, sparks, open flames and other ignition sources.

No smoking. P211 Do not spray on an open flame or other ignition source. P251 Do not pierce or burn, even after use. P261 Avoid breathing dust/fume/gas/mist/vapours/spray. P264 Wash hands/nails/face thoroughly after handling. P271 Use only outdoors or in a well-ventilated area.

P280 Wear gloves/protective clothing/eye protection/face protection. P301 + P310 IF SWALLOWED: Immediately call a doctor. P331 DO NOT INDUCE VOMITING. P302 + P352 IF ON SKIN: wash with plenty of water. P333 + P313 IF SKIN irritation or rash occurs: Get medical attention. P362 + P364 Take off contaminated clothing and wash it before reuse. P304 + P340 IF INHALED: Remove person to fresh air and keep comfortable for breathing. P312 Call a doctor if you feel unwell. P410+P412+P403+P233 Protect from sunlight. Do not expose to temperatures exceeding 50 °C/122 °F. Store in a well-ventilated area.Keep container tightly closed. P405 Store locked up. P501 Dispose of contents/container into safe container in accordance with local, regional or national regulations.

**Other hazards known** Simple Asphyxiants (Category 1) A gas that is a simple asphyxiant\*\*\*

**Section 3. Composition/information on ingredients**

| <b>Chemical name (common name/synonyms)</b> | <b>CAS number or other</b> | <b>Concentration (%)*</b> |
|---|----------------------------|---------------------------|
| Naphtha (petroleum), hydrotreated heavy     | 64742-48-9                 | 50-100                    |
| Carbon dioxide                              | 124-38-9                   | < 3                       |

All ingredients are listed according to OSHA (29 CFR).

\* Statement - This safety data sheet provides concentration range(s) instead of the actual concentration(s) by weight (except for gases/propellants by volume) considered trade secret(s).

| <b>Section 4. First-aid measures</b>  |   |
|---|---|
| <b>Inhalation</b>   | IF INHALED: Remove person to fresh air and keep comfortable for breathing. Call a doctor if you feel unwell.  |
| <b>Ingestion</b>  | IF SWALLOWED: Immediately call a doctor. DO NOT INDUCE VOMITING. NEVER give anything by mouth if victim is rapidly losing consciousness, or is unconscious or convulsing. Rinse mouth thoroughly with water. Have victim drink two glasses of water. If vomiting occurs naturally, have victim lean forward to reduce risk of aspiration. |
| <b>Skin contact</b>   | IF ON SKIN: wash with plenty of water. (15-20 minutes) IF SKIN irritation or rash occurs: Get medical attention. Take off contaminated clothing and wash it before reuse.   |
| <b>Eye contact</b>  | IF IN EYES, Rinse cautiously with water for several minutes (15-20). Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical attention.   |
| <b>Most important symptoms and effects (acute or delayed)</b>   | Causes skin irritation.   |
| <b>Indication of immediate medical attention/special treatment</b>  | In all cases, call a doctor. Do not forget this document.   |
| <b>Section 5. Fire-fighting measures</b>  |   |
| <b>Specific hazards of the hazardous product (hazardous combustion products)</b>  |   |
| Carbon oxides and other irritant/toxic gases and fumes.   |   |
| <b>Suitable and unsuitable extinguishing media</b>  |   |
| In case of fire: Use carbon dioxide, chemical powder agent and appropriate foam to extinguish.  |   |
| <b>Special protective equipment and precautions for fire-fighters</b>   |   |
| During a fire, irritating/toxic smoke and fumes may be generated. Do not enter fire area without proper protection. Firefighters should wear proper protective equipment and self-contained breathing apparatus with full facepiece. Shield personnel to protect from venting, rupturing or bursting cans. Move containers from fire area if it can be done without risk. Water spray may be useful in cooling equipment and cans exposed to heat and flame.  |   |
| <b>Section 6. Accidental release measures</b>   |   |
| <b>Personal precautions, protective equipment and emergency procedures</b>  |   |
| Restrict access to area until completion of clean-up. Ensure clean-up is conducted by trained personnel only. All persons dealing with clean-up should wear the appropriate protective equipment (See Section 8).   |   |
| <b>Methods and materials for containment and cleaning up</b>  |   |
| Avoid release to the environment. Collect spillage. Ventilate area of release. Stop the leak if it can be done safely. Contain and absorb any spilled liquid concentrate with inert absorbent material, then place material into a container for later disposal (see Section 13). Contaminated absorbent material may pose the same hazards as the spilled product. Notify the appropriate authorities as required.   |   |
| <b>Section 7. Handling and storage</b>  |   |
| <b>Precautions for safe handling</b>  |   |
| Protect from sunlight. Do not expose to temperatures exceeding 50 °C/122 °F. Keep away from heat/sparks/open flames/hot surfaces. - No smoking. Do not spray on an open flame or other ignition source. Do not pierce or burn, even after use. Use only outdoors or in a well-ventilated area. Wash hands/nails/face thoroughly after handling. Wear gloves/protective clothing/eye protection/face protection. Before handling, it is very important that engineering controls are operating, and that protective equipment requirements and personal hygiene measures are being followed. People working with this chemical should be properly trained regarding its hazards and its safe use. Inspect containers for leaks before handling. Label containers appropriately. Ensure proper ventilation. Avoid breathing dust/fume/gas/mist/vapours/spray. Avoid contact with eyes, skin and clothing. Keep away from heat, sparks and flame. Avoid generating high concentrations of dusts, vapours or mists. Keep away from incompatible materials (Section 10). Keep containers closed when not in use. Empty containers are always dangerous. Refer also to Section 8. |   |
| <b>Conditions for safe storage, including any incompatibilities</b>   |   |
| Store in a well-ventilated place. Keep container tightly closed. Keep cool. Store locked up. Store away from incompatible materials (Section 10). Inspect all incoming containers to make sure they are properly labelled and not damaged. Storage area should be clearly identified, clear of obstruction and accessible only to trained personnel. Inspect periodically for damage or leaks.  |   |
| <b>Section 8. Exposure controls/Personal protection</b>   |   |
| <b>Control parameters (biological limit values or exposure limit values and source of those values)</b>   |   |
| Exposure limits: CAS 124-38-9 – ACGIH – TLV-TWA & PEL-TWA 5000 ppm (STEL 30000 ppm);  |   |
| <b>Appropriate engineering controls</b>   |   |
| Use under well-ventilated conditions. Local exhaust ventilation system is recommended to maintain concentrations of contaminants below exposure limits. Make emergency eyewash stations, safety/quick-drench showers, and washing facilities available in work area.  |   |
| <b>Individual protection measures/personal protective equipment</b>   |   |
| Respiratory protection is required if the concentrations are higher than the exposure limits. Use a NIOSH approved respirators if the exposure limits are unknown. Chemically protective gloves (impervious), and other protective clothing to prevent prolonged or repeated skin contact, must be worn during all handling operations. Wear protective chemical splash goggles to prevent mists from entering the eyes. Wash hands/nails/face thoroughly after handling. Do not eat, drink or smoke when using this product. Practice good personal hygiene after using this material. Remove and wash contaminated work clothing before re-use.   |   |

| <b>Section 9. Physical and chemical properties</b>  |                             |  |                               |
|---|-----------------------------|--|-------------------------------|
