Section 2. Haz	ard identification		
Classification of hazardous product (name of the category or subca	tegory of the hazard class)		
Extremely flammable aerosol (Category 1)			
Gas under pressure (compressed gas)			
Skin irritation (Category 2)			
Eye irritation (Category 2A)			
Aspiration hazard (Category 1)			
Specific target organ toxicity – single exposure (Category 3), Central ne	rvous system		
Information elements (symbols, signal words, hazard statements an		rv/subcategory)	
Danger H222 Extremely flammable aerosol. H229 Pressurized container: may burst if heated. H280 Contains gas under pressure; may explode if heated. H304 May be fatal if swallowed and enters airways. H315 Causes skin irritation. H319 Causes serious eye irritation. H336 May cause drowsiness or dizziness. *** May displace oxygen and cause rapid suffocation. P210 Keep awa No smoking. P211 Do not spray on an open flame or other ignition s dust/fume/gas/mist/vapours/spray. P264 Wash hands/nails/face thorou, P280 Wear gloves/protective clothing/eye protection/face protection. 	Section 4. First-aid measures
Inhalation	IF INHALED: Remove person to fresh air and keep comfortable for breathing. Call a doctor if you feel unwell.
Ingestion	IF SWALLOWED: Immediately call a doctor. DO NOT INDUCE VOMITING. NEVER give anything by mouth if victim is
ingestion	rapidly losing consciousness, or is unconscious or convulsing. Rinse mouth thoroughly with water. Have victim drink two
	glasses of water. If vomiting occurs naturally, have victim lean forward to reduce risk of aspiration.
Skin contact	IF ON SKIN: wash with plenty of water. (15-20 minutes) IF SKIN irritation or rash occurs: Get medical attention. Take off
Shin contact	contaminated clothing and wash it before reuse.
Eye contact	IF IN EYES, Rinse cautiously with water for several minutes (15-20). Remove contact lenses, if present and easy to do.
Lyc contact	Continue rinsing. If eye irritation persists: Get medical attention.
Most importan	t symptoms and effects (acute or delayed) Causes skin irritation. Causes serious eye irritation.
	nmediate medical attention/special treatment In all cases, call a doctor. Do not forget this document.

•	ls of the hazardous product (hazardous combustion products)
	ind other irritant/toxic gases and fumes.
	nsuitable extinguishing media
	Jse carbon dioxide, chemical powder agent and appropriate foam to extinguish.
	ive equipment and precautions for fire-fighters
	ritating/toxic smoke and fumes may be generated. Do not enter fire area without proper protection. Firefighters should wear proper
	ment and self-contained breathing apparatus with full facepiece. Shield personnel to protect from venting, rupturing or bursting cans.
Move containers	from fire area if it can be done without risk. Water spray may be useful in cooling equipment and cans exposed to heat and flame.
	Section 6. Accidental release measures
	utions, protective equipment and emergency procedures
Restrict access	to area until completion of clean-up. Ensure clean-up is conducted by trained personnel only. All persons dealing with clean-up
should wear the	appropriate protective equipment (See Section 8).
Methods and m	naterials for containment and cleaning up
Avoid release to	the environment. Collect spillage. Ventilate area of release. Stop the leak if it can be done safely. Contain and absorb any spilled
	te with inert absorbent material, then place material into a container for later disposal (see Section 13). Contaminated absorbent
	se the same hazards as the spilled product. Notify the appropriate authorities as required.

	ls/nails/face thoroughly after handling. Wear gloves/protective clothing/eye protection/face protection.
	g, it is very important that engineering controls are operating, and that protective equipment requirements and personal hygiene
	eing followed. People working with this chemical should be properly trained regarding its hazards and its safe use. Inspec
	r leaks before handling. Label containers appropriately. Ensure proper ventilation. Avoid breathing
	nist/vapours/spray. Avoid contact with eyes, skin and clothing. Keep away from heat, sparks and flame. Avoid generating high
	f dusts, vapours or mists. Keep away from incompatible materials (Section 10). Keep containers closed when not in use. Empty
	ways dangerous. Refer also to Section 8.
	safe storage, including any incompatibilities
	ventilated place. Keep container tightly closed. Keep cool. Store locked up. Store away from incompatible materials (Section 10).
	ming containers to make sure they are properly labelled and not damaged. Storage area should be clearly identified, clear of
obstruction and	accessible only to trained personnel. Inspect periodically for damage or leaks.
