	Section 4. First-aid measures		
Inhalation	IF INHALED: Remove person to fresh air and keep comfortable for breathing. Call a doctor if you feel unwell.		
Ingestion	IF SWALLOWED: Immediately call a doctor. DO NOT INDUCE VOMITING. NEVER give anything by mouth i		
	rapidly losing consciousness, or is unconscious or convulsing. Rinse mouth thoroughly with water. Have victim drink two glasses		
	of water. If vomiting occurs naturally, have victim lean forward to reduce risk of aspiration.		
Skin contact	IF ON SKIN: wash with plenty of water. (15-20 minutes) IF SKIN irritation or rash occurs: Get medical attention. Take of		
	contaminated clothing and wash it before reuse.		
Eye contact	IF IN EYES, Rinse cautiously with water for several minutes (15-20). Remove contact lenses, if present and easy to do. Continue		
	rinsing. If eye irritation persists: Get medical attention.		
Most important	symptoms and effects (acute or delayed) Causes skin irritation.		
Indication of im	In all cases, call a doctor. Do not forget this document.		
	Section 5. Fire-fighting measures		
	s of the hazardous product (hazardous combustion products)		
	nd other irritant/toxic gases and fumes.		
	suitable extinguishing media		
	se carbon dioxide, chemical powder agent and appropriate foam to extinguish.		
	ve equipment and precautions for fire-fighters		
	itating/toxic smoke and fumes may be generated. Do not enter fire area without proper protection. Firefighters should wear prope		
	nent and self-contained breathing apparatus with full facepiece. Shield personnel to protect from venting, rupturing or bursting cans		
Move containers	from fire area if it can be done without risk. Water spray may be useful in cooling equipment and cans exposed to heat and flame.

	itions, protective equipment and emergency procedures		
	area until completion of clean-up. Ensure clean-up is conducted by trained personnel only. All persons dealing with clean-up should interprotective equipment (See Section 8).		
	aterials for containment and cleaning up		
	the environment. Collect spillage. Ventilate area of release. Stop the leak if it can be done safely. Contain and absorb any spilled		
	e with inert absorbent material, then place material into a container for later disposal (see Section 13). Contaminated absorbent materia		
	have have a been been internal, then prace material into a container for rater disposal (see Section 13). Containinated absorbent material in have have a been been been been been been been b		
may pose the sam	Section 7. Handling and storage		
Precautions for			
	light. Do not expose to temperatures exceeding 50 °C/122 °F. Keep away from heat/sparks/open flames/hot surfaces No smoking		
	an open flame or other ignition source. Do not pierce or burn, even after use. Use only outdoors or in a well-ventilated area. Wash		
	thoroughly after handling. Wear gloves/protective clothing/eye protection/face protection.		
	, it is very important that engineering controls are operating, and that protective equipment requirements and personal hygien		
	ng followed. People working with this chemical should be properly trained regarding its hazards and its safe use. Inspect container		
	handling. Label containers appropriately. Ensure proper ventilation. Avoid breathing dust/fume/gas/mist/vapours/spray. Avoid		
	s, skin and clothing. Keep away from heat, sparks and flame. Avoid generating high concentrations of dusts, vapours or mists. Keep		
	npatible materials (Section 10). Keep containers closed when not in use. Empty containers are always dangerous. Refer also to		
Section 8.	inputole indentials (section 10). Reep containers closed when not in use. Empty containers are arways dangerous. Refer also a		
	afe storage, including any incompatibilities		
	entilated place. Keep container tightly closed. Keep cool. Store locked up. Store away from incompatible materials (Section 10)		
	ning containers to make sure they are properly labelled and not damaged. Storage area should be clearly identified, clear o		
	accessible only to trained personnel. Inspect periodically for damage or leaks.		
	Section 8. Exposure controls/Personal protection		
Control parame	eters (biological limit values or exposure limit values and source of those values)		
	CAS 74-98-6 & 75-28-5 & 106-97-8 - ACGIH - TLV-TWA (STEL) and/or PEL-TWA 1000 ppm; CAS 7429-90-5 - ACGIH -		
	g/m ³ & PEL-TWA 1 mg/m ³ ; CAS 13463-67-7 ACGIH – TLV-TWA 10 mg/m ³ & PEL-TWA 10 mg/m ³ ; Dust – PEL-TWA 15		
	t) & 5 mg/m ³ (respirable fraction);		
Appropriate en	gineering controls		
Use under well-w	rentilated conditions. Local exhaust ventilation system is recommended to maintain concentrations of contaminants below exposure		
limits. Make eme	ergency eyewash stations, safety/quick-drench showers, and washing facilities available in work area.		
	ection measures/personal protective equipment		
	ection is required if the concentrations are higher than the exposure limits. Use a NIOSH approved respirators if the exposure limit		
Respiratory prote	section is required if the concentrations are inglier than the exposure mints. Ose a respirators if the exposure mint		
	emically protective gloves (impervious), and other protective clothing to prevent prolonged or repeated skin contact, must be work		
are unknown. Ch			
are unknown. Ch during all handli	emically protective gloves (impervious), and other protective clothing to prevent prolonged or repeated skin contact, must be worn		

Section 9. Physical and chemical properties				
Physical state Aerosol/Liquid pH Not available				
Colour Grey	Kinematic viscosity Not available			
Odour Characteristic	Solubility Not available			
Melting/freezing point Not available	Partition coefficient - n-octanol/water (log) Not available			
Initial boiling point/ initial/range Not available	Vapour pressure Not available			
Flammability Extremely flammable aerosol	Density/relative density 0.692 g/cm ³ @ 20°C			
Upper and lower flammability/explosive limits 1.7% - 10.9%	Relative vapour density Heavier than air			
Flash point Not available	Particle characteristics Not available			
Auto-ignition temperature Not available VOC Not available				
Decomposition temperature Not available Other None known				
Section 10. Stabil	ity and reactivity			
Reactivity				
Does not react under the recommended storage and handling conditions pre	scribed.			
Chemical stability				
Stable under the recommended storage and handling conditions prescribed.				
Possibility of hazardous reactions				
Accumulation of flammable if product is heated. Do not spray on an op-	en flame or other ignition source. Do not pierce or burn, even after use.			
Protect from sunlight. Do not expose to temperatures exceeding 50 $^{\circ}$ C/122				
Conditions to avoid (static discharge, shock or vibration)				
Keep away from heat, hot surfaces, sparks, open flames and other ignitio	n sources. No smoking. Do not spray on an open flame or other ignition			
source. Do not pierce or burn, even after use. Protect from sunlight. Do not				
Incompatible materials				
Oxidizing materials; etc.				
Hazardous decomposition products				
None known				
Section 11. Toxicol	ogical information			
Information on the likely routes of exposure (inhalation, ingestion, skin and eye contact)				
May be fatal if swallowed and enters airways. Causes skin irritation. May cause drowsiness or dizziness. Suspected of causing cancer. May displace				
oxygen and cause rapid suffocation.				
Symptoms related to the physical, chemical and toxicological characteristics				
Skin irritation, redness, stinging, pain; Eye irritation, redness, tearing; Respiratory tract irritation, coughing, shortness of breath, dizziness,				
drowsiness, nausea and headaches.	,			
Delayed and immediate effects (chronic effects from short-term and l	ong-term exposure)			
Skin Sensitization – No data available;				
Respiratory Sensitization – No data available;				
Germ Cell Mutagenicity – No data available;				
Carcinogenicity – Ingredient listed by IARC, ACGIH, NTP or OSHA;				
Reproductive Toxicity – No data available;				
Specific Target Organ Toxicity — Single Exposure – Possible;				
Specific Target Organ Toxicity — Repeated Exposure – No data available;				
Aspiration Hazard – Possible;				
Health Hazards Not Otherwise Classified – No data available.				
Numerical measures of toxicity (ATE; LD50 & LC50)				
CAS 75-28-5 & 106-97-8 LC ₅₀ 658000 mg/m ³ 4 hrs (rat);				
ATE not available in this document.				
Section 12. Ecological information				
Ecotoxicity (aquatic and terrestrial information) No data available for this product.				
Persistence and degradability No data available for this product.				
Bioaccumulative potential No data available for this product.				
Mobility in soil No data available for this product.				
Other adverse effects Toxic to aquatic life with long lasting effects.				
Section 13. Dispos	Section 13. Disposal considerations			
Information on safe handling for disposal/methods of disposal/contan				
Dispose of contents/container into safe container in accordance with local
